

CONSUMER PRODUCTS

Through our consumer products department, Eurofins EnvironeX offers first-class complimentary services to help businesses from all industries ensure that their products meet the highest standards of quality. Our customized programs outline product characterisation, from raw materials to the finished product, including comparison testing with your choice of references.

Examples of consumer products :

- Detergents, soaps
- Shampoos, shower gels
- Creams, lotions
- Beauty products
- Cleaning products
- Over-the-counter medications
- Natural health products
- Diapers, sanitary napkins
- Hygienic paper, tissues, wipes
- Dry foods
- Condiments
- Ready-to-eat foods
- Dairy products
- Plastic bags
- Matches
- Toys and games
- And much more...

We use analytical methods that are standardized by known organisations (ASTM, BNQ, AOAC, Health Canada, etc.) in order to maximize the recognition and validity your quality assurance programs.
